SUMMARY

Full-stack Software Engineer with around 3 years of experience building backend systems and REST APIs with Node.js/NestJS, and frontends with React/Next.js. Experienced with VAS/IVR telecom platforms, backend migrations (TypeORM, WebSockets), and integrating AI features into production apps. Comfortable handling a feature end-to-end, from the database to the deployed UI.

TECHNICAL SKILLS

Backend: Node.js, TypeScript, Express, NestJS, MVC, REST APIs, WebSockets, Socket.IO, TypeORM, Asterisk (ARI)

Frontend: JavaScript, HTML/CSS, Tailwind/SASS, React.js, Next.js, React Native, Redux, React Router

Databases & Infra: MySQL, PostgreSQL, MongoDB, Redis, Apache Kafka, Microservices, Linux, Git

Testing: Chai, Mocha, Jest

AI Tools & Integration: Cursor, Claude Code, Google Antigravity (Gemini Flash 3.1/3.5), ChatGPT, OpenAI API

EXPERIENCE

Backend Developer | [Hive Health Ltd](#)

Mar 2024 – Jan 2026 — Islamabad, Pakistan

- Developed new REST APIs to support additional product features.
- Migrated the real-time communication layer from Socket.IO to native WebSocket (ws), reducing latency by an estimated 15% and improving overall performance across the app.
- Migrated raw SQL queries to TypeORM, improving code maintainability, type safety, and developer productivity.
- Integrated AI to analyze meals and extract nutritional content, including calorie counts, used in an in-app calorie counter with photo/manual logging and personalized fitness targets.
- Fixed bugs and improved performance across the existing codebase.
- Wrote backend API integration tests using Chai/Mocha.
- Redesigned and deployed the HiveHealth showcase website using Next.js, achieving a 95+ Lighthouse performance score.

Executive Node.js Developer | [Switch Communications](#)

Dec 2022 – Jan 2024 — Islamabad, Pakistan

- Built Node.js/Express backends and REST APIs for Value-Added Services (VAS) used across web and mobile apps.
- Delivered VAS features end-to-end and provided ongoing support, fixing bugs and vulnerabilities in production.
- Worked with Node.js, React.js, MySQL, Linux, Apache Kafka, and Asterisk to build telecom solutions for clients.
- Built IVR applications for telecom providers (Jazz/Ufone) that let users access services via shortcodes.
- Built an internal web portal to broadcast ad messages and advertise products via IVR calls to millions of users.
- Automated report generation for VM servers, cutting down time spent on manual reporting for the team.

Node.js Backend Intern | [Switch Communications](#)

Sep 2022 – Dec 2022 — Islamabad, Pakistan

- Learned Asterisk and worked on Node.js-based VoIP systems using the Asterisk REST Interface (ARI).
- Fixed codebase issues and improved performance of existing functionality.
- Worked with Apache Kafka and Linux for deployment and server setup.

Front-End Developer | [Freelance](#)

Nov 2021 – Jun 2022 — Remote

- Translated Figma/PSD designs into pixel-perfect, responsive HTML/CSS/JavaScript.
- Built interactive, dynamic web applications using React.js.
- Supported backend integration work using basic PHP.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2017 - Aug 2021

Hazara University, Mansehra, Pakistan — CGPA: 3.45 / 4.0

CERTIFICATIONS & TRAINING

- Node.js - The Complete Guide (MVC, REST APIs) - Udemy
- Next.js & React - The Complete Guide - Udemy
- Programming for Everybody (Getting Started with Python) - University of Michigan, Coursera
- The Complete JavaScript Course - Udemy
- The Ultimate MySQL Bootcamp - Udemy
- Operating Systems and You: Becoming a Power User - Google, Coursera
- React Native - Meta, Coursera (In Progress)

LANGUAGES

English (Advanced) • Urdu (Proficient) • Pashto (Native)
